

Job Title: Stormwater Inspector – Oil and Gas Operations

Company: KC Harvey Environmental, LLC

Industry: Environmental Consulting

Location: North Dakota- Bakken Region

Job Description

Our Bozeman, Montana, based Environmental Consulting firm is seeking a **Stormwater Inspector** for work in western North Dakota. We currently specialize in permitting and compliance for the oil and gas industries, restoration, mitigation and reclamation, planning, and related environmental studies. This is a seasonal position (~April – November) that has potential for full-time employment.

Duties and Responsibilities

- Understand purpose and scope of stormwater inspections
- Establish working relationship with oil and gas facility operations personnel
- Review current inspection plans and checklists
- Provide technical field support on environmental projects throughout the project area
- Develop permit/mitigation strategies and compile work plans to implement solutions
- Perform daily stormwater inspections and repair and/or install stormwater BMPs
- Work with a multidisciplinary team in preparation of high quality client work products
- Plan, communicate, and manage projects on time and within budget
- Write technical reports, collect data, and conduct survey field work
- Position requires relocation to western North Dakota for seasonal work and long hours performing work outdoors

Required Qualifications

- Undergraduate or Associates degree in Environmental Engineering or Natural Resource Science fields
- Willing to learn quickly about environmental monitoring
- Strong written and oral communication skills
- Well organized and have the ability to manage and prioritize work assignments
- Desire to work independently within a multi-disciplinary team

- A desire to provide excellent and innovative solutions to our customers' technical problems
- Self- motivated with a strong safety and work ethic
- Valid driver's license with satisfactory driving record

Preferred Qualifications and Experience

- Experience in environmental consulting with private and public sector clients and projects
- General knowledge of regulatory requirements of the Clean Water Act
- Stormwater Inspector Certification
- Capability with GPS and mapping
- Prior experience working in the oil and gas industry
- Safety training certification (SafeLand, OSHA 10, etc.)
- A background in plant ecology and land restoration
- Knowledge of invasive and noxious weeds

Compensation

KC Harvey offers competitive compensation packages and a professional work environment. Compensation is commensurate with experience and skills.

As a condition of employment, successful candidates must be able to provide documentation of eligibility to work in the US and must pass a pre-employment drug and alcohol test.

KC Harvey is an Equal Opportunity Employer and a Drug Free Work Place
