

Consulting Environmental Engineer / Scientist
Marietta, Ohio
KC Harvey Environmental, LLC

Please only apply to this job if you have environmental consulting experience in the Appalachian region, AND you are willing to live in or near Marietta, Ohio for this position.

KC Harvey is a growing environmental services firm headquartered in the beautiful Rocky Mountain town of Bozeman, Montana. KC Harvey integrates environmental management consulting with field services and technology development. We provide these services to industrial and government sector clients throughout the U.S., North America and the world. KC Harvey is noted for advancing the application of natural resource science in the fields of water management and soil restoration technologies, among other things. These accomplishments have made a real difference to our oil and gas, mining, energy and government clients, as well as the environment.

KC Harvey is currently seeking a qualified Environmental Engineer/Scientist for a consulting position in our Marietta, Ohio office. The successful candidate will serve as a Project Manager or Project level Engineer/Scientist working with project teams on baseline environmental studies, permitting, environmental and compliance monitoring, and related projects. This is a unique opportunity to apply your technical and consulting skills and to take a leadership role in developing solutions to interesting environmental issues facing our clients. Our small firm will offer the right individual a combination of autonomy with the support of a highly reputable and innovative team.

General Duties and Responsibilities

- Manage clients' monitoring and sampling programs to demonstrate compliance with regulatory requirements and permits
- Provide technical field and office support on environmental projects
 - Environmental inventory, planning, assessments, and permitting
 - Environmental monitoring and inspections
 - Planning and execution of remediation, reclamation, and restoration projects
- Develop new clients and business and manage client relationships
- Review and analyze current and emerging regulations affecting client operations
- Lead multidisciplinary teams in preparation of high quality client work products
- Plan, communicate, and manage projects on time and within budget
- Conduct field work, collect data, and write technical reports

Required Qualifications

- Must have 5-10+ years of experience in environmental consulting with Appalachia private and/or public sector projects
- Oil and gas industry experience, including field experience
- B.S. Degree in Environmental Engineering or Environmental / Natural Resource Sciences
- Ability and desire to develop new clients and new business

- Experience with wetland delineation / 404 permitting
- Strong written and oral communication skills
- Well organized and have the ability to manage and prioritize several assignments
- Desire to lead, mentor and train a team of scientists and technical staff members
- Interested in providing excellent and innovative solutions to our customers' technical problems and questions
- Self- motivated with a strong safety and work ethic
- Valid driver's license with satisfactory driving record
- Ability to travel approximately 10% of the time

Preferred Qualifications and Experience

- P.E. certification or in progress (if an environmental engineer)
- High level water quality sampling capabilities
- Experience with CAD, GIS, and Microsoft suite software
- Advanced degree
- Involvement in regional and national natural resource/environmental industry organizations
- 40-hour HAZWOPER training and current certification
- Storm water management certification

Compensation and Benefits

KC Harvey offers competitive compensation packages with the potential for bonuses. Salary is commensurate with experience and skills. Benefits include medical insurance coverage, life and long term disability, 401k, paid vacation, holidays, and sick time.

Application

To apply send resume, cover letter, and references. College transcripts may be required to confirm degree credentials. For more information about KC Harvey visit our website at www.kcharvey.com.
