

**Job Title:** Permian Basin Mid-Level Environmental Scientist / Engineer  
**Company:** KC Harvey Environmental, LLC  
**Industry:** Environmental Management Consulting and Field Services  
**Location:** Odessa, Texas

## Job Description

KC Harvey is a growing environmental services firm headquartered in Bozeman, Montana with an office in Odessa, Texas, to support Permian Basin oil and gas operations. We are seeking environmental scientists and engineers to join our Permian Basin operations team. This is an excellent opportunity to use your consulting and technical skills to work on interesting environmental projects and to advance your career. The successful candidate will serve as a project level engineer/scientist working with a team on oil field environmental management projects. Persons in this position will have the opportunity to take on client management and senior level consulting responsibilities.

## Duties and Responsibilities

- Provide technical support on environmental projects for oil and gas clients in the Permian Basin of west Texas and southeast New Mexico
  - Spill/emergency response planning and soil/groundwater sampling and analysis
  - Develop Spill Prevention Control and Countermeasures (SPCC) plans
  - Naturally Occurring Radioactive Materials (NORM) field surveys and development of Worker Protection Plans
  - Prepare waste management plans and produced water management plans
  - Permit injection wells
  - Air quality permitting, field testing, monitoring and reporting
  - Phase I and II environmental site assessments and environmental compliance auditing
  - Wetland delineation and US Army Corp of Engineers Section 404 permit application
  - Baseline wildlife studies and assessments
  - USFWS Biological Assessments and Evaluations and ESA Section 7 consultation
  - Prepare NEPA documents (New Mexico)
- Help develop new clients and business and manage client relationships
- Collect, manage and interpret data, and write technical reports
- Work with a multidisciplinary team in preparation of high quality client work products
- Plan, communicate, and execute projects safely, on time and within budget.

### **Required Qualifications**

- A minimum of five years of experience in environmental consulting
- B.S. degree in environmental engineering or environmental / natural resource sciences (advanced degree preferred)
- Strong written and oral communication skills
- Well organized and have the ability to manage and prioritize several assignments
- Desire to work independently within a multi-disciplinary team
- Desire to provide excellent and innovative solutions to our customers' technical problems
- Self- motivated with a strong safety and work ethic
- Valid driver's license with satisfactory driving record

### **Preferred Qualifications and Experience**

- Oil and gas industry experience, particularly in the Permian Basin
- Expertise in SPCCs, air quality, NORM, and/or spill remediation
- Knowledge of Permian Basin regulatory requirements (Texas and/or New Mexico)
- P.E. or P.G. certification or in progress
- Experience with CAD and/or GIS
- Oilfield safety training (e.g., Safeland, OSHA, H2S, etc.)

### **Compensation and Benefits**

KC Harvey offers competitive compensation packages with the potential for bonuses. Salary is commensurate with experience and skills. Benefits include medical insurance coverage, life and long term disability, 401k, paid vacation, holidays, and sick time. Lodging may be provided as necessary.

### **Application**
