

**Consulting Environmental Scientist
Marietta, Ohio
KC Harvey Environmental, LLC**

Please only apply to this job if you have environmental consulting experience in the Appalachian region, AND you are willing to live in or near Marietta, Ohio for this position.

KC Harvey is a growing environmental services firm headquartered in Bozeman, Montana. KC Harvey integrates environmental management consulting with field services and technology development. We provide these services to industrial and government sector clients throughout the U.S., North America, and the world. KC Harvey is noted for advancing the application of natural resource science in the fields of water management and soil restoration technologies, among other things. These accomplishments have made a real difference to our oil and gas, mining, energy and government clients, as well as the environment.

KC Harvey is currently seeking a mid-level Environmental Scientist for a consulting position in our Marietta, Ohio office. The successful candidate will serve as a Project Manager or Project Scientist working with project teams on baseline environmental studies, permitting, environmental and compliance monitoring, and related projects. This is a unique opportunity to apply technical and consulting skills and develop solutions to interesting environmental issues facing our clients. Our small firm will offer the right individual a combination of autonomy with the support of a highly reputable and innovative team.

General Duties and Responsibilities

- Manage clients' monitoring and sampling programs to demonstrate compliance with regulatory requirements and permits
- Assist with field construction inspections and erosion control monitoring
- Provide assistance with environmental permitting and compliance support for key segments of the oil and gas industry including Section 401/404 permitting
- Conduct wetland delineations in accordance with U.S. Army Corps of Engineers Wetland Delineation Manual (1987) and Regional Supplements and conduct ORAM and HHEI/QHEI evaluations
- Perform environmental due diligence projects such as Phase I Environmental Site Assessments
- Develop new clients and business and manage client relationships
- Independently prepare environmental reports

Required Qualifications

- Must have five years of experience in environmental consulting or with an environmental staff for private industry
- Oil and gas industry experience, including field experience
- B.S. Degree in Environmental / Natural Resource Sciences
- Ability and desire to develop new clients and new business
- Strong written and oral communication skills

- Well organized and have the ability to manage and prioritize several assignments
- Interested in providing excellent and innovative solutions to our customers' technical problems and questions
- Self- motivated with a strong safety and work ethic
- Valid driver's license with satisfactory driving record
- Ability to conduct year round work in adverse climate and field conditions
- Ability to travel approximately 10% of the time

Preferred Qualifications and Experience

- Experience with CAD, GIS, and Microsoft suite software
- Advanced degree
- 40-hour HAZWOPER training and current certification
- Strong understanding of E&S control best management practices

Compensation and Benefits

KC Harvey offers competitive compensation packages with the potential for bonuses. Salary is commensurate with experience and skills. Benefits include medical insurance coverage, life and long term disability, 401k, paid vacation, holidays, and sick time.

Application

To apply send resume, cover letter, and references. College transcripts may be required to confirm degree credentials. For more information about KC Harvey visit our website at www.kcharvey.com.
