

## TEXAS ENVIRONMENTAL CONSULTING JOB OPPORTUNITY

**Job Title:** Permian Basin Regional Operations Manager  
**Company:** KC Harvey Environmental, LLC  
**Industry:** Environmental Consulting and Field Services  
**Location:** Odessa, Texas

KC Harvey is pleased to announce an exciting opportunity to join our team as the Regional Operations Manager of our Permian Basin operation in Odessa, Texas. The Regional Operations Manager will lead our team of environmental science and engineering staff to manage our oil and gas clients' projects, develop creative solutions, and implement project plans in the field. This is an excellent opportunity to grow your career in a senior management position while having the flexibility of a small company structure and the adaptability of a highly skilled professional team. We are looking for the right individual to tackle complex scenarios, build on our existing portfolio of clients and projects, and lead our team to success in achieving our clients' environmental goals.

The Regional Operations Manager will:

- Provide technical leadership on environmental consulting projects for our oil and gas clients
- Integrate project planning, equipment resourcing, scheduling, budgeting, quality controls, and safety for crews to meet all project deadlines and expectations
- Cultivate client relationships, develop business, and prepare bids and proposals
- Manage, train and mentor a team of environmental scientists, engineers and technicians
- Coordinate with clients, business partners, regulatory agencies, and subcontractors
- Recruit and retain team members as our Permian operations grow

Requirements:

- Bachelor's Degree in environmental science, environmental engineering, geology, chemical engineering or related field
- 10+ years of experience in environmental project management
- Experience managing projects, including personnel, schedule, budget, quality, and safety
- Experience in the oil and gas industry
- Experience working in the Permian Basin oil field
- Experience in oil field spill response and remediation, SPCC plan development and inspections, NORM surveys and management, and air quality permitting and compliance
- Significant experience completing environmental management projects, report writing, and permit applications
- Strong entrepreneurial attitude
- Strong interpersonal, teambuilding, and mentoring skills
- Excellent written and oral communication skills and computer skills
- Knowledge of federal and state environmental regulations

- Prior safety training and credentials such as OSHA 40, H<sub>2</sub>S, Safeland, etc.
- Clean driving record

Salary is competitive and will be commensurate with experience and skills. KC Harvey offers an excellent benefits package including performance bonuses and profit sharing. If this is the job you have been waiting for, please email your resume with a cover letter summarizing your interest to the following address:
