

ENVIRONMENTAL CONSULTING JOB OPPORTUNITY

Job Title: Permian Basin Environmental Scientist
Company: KC Harvey Environmental, LLC
Industry: Environmental Consulting
Location: Odessa, Texas

KC Harvey is seeking early career environmental scientists, environmental engineers, and earth scientists to assist with field assessment, delineation, and remediation in the Permian Basin in West Texas. The position is full-time and requires working some weekends. **Candidates must be willing to relocate to Odessa/Midland, Texas.**

This is an excellent opportunity to start or continue a rewarding and productive career in the environmental field. Pay starts at \$26.50/hour (depending on experience), with some overtime. Occasional weekend on-call availability is required.

Primary responsibilities include the following:

- Visiting active oil field operations including wellpads, facilities, and drilling rigs for field inspections and data collection
- Planning and executing small- and large-scale sampling projects
- Collecting and performing field analysis on soil and water samples
- Integrating and analyzing field and lab data to calculate volumes
- Preparing technical reports to communicate results and recommendations to clients
- Knowledge and application of state and federal environmental regulations

Employees who prove themselves may grow into an advanced environmental consulting role over time and be responsible for the following:

- Environmental Phase I and due diligence assessments
- Spill Prevention Control and Countermeasures (SPCC) field inspections
- Naturally Occurring Radioactive Materials (NORM) field surveys
- Environmental permit preparation
- Assist on other environmental management projects involving soil, water, and air monitoring and investigations

Requirements for this job:

- **A Bachelor's degree in geoscience, environmental science/engineering or related field is required.**
- A positive attitude and ability to learn quickly
- Excellent communication skills
- The ability to work well both independently and on a team
- Strong technical writing skills
- Ability to work outdoors for long hours
- A high standard of safety
- Experience using GPS for navigation and data collection
- A clean driving record and experience driving in off-road environments

- Participation in pre-employment drug and alcohol screening

Additional desired skills for this job:

- Experience working on location in the oilfield including drilling rigs and completions operations
- Safeland, H2S Awareness, and OSHA 40 Hr HAZWOPER training
- Coursework/fieldwork relating to environmental aspects of soil, water, and air
- Fluency in Spanish
- Experience with ArcGIS software and data

To apply, email a cover letter, resume, transcripts (unofficial or official), and a list of three references to careers@kcharvey.com. For more information about our company, please visit our website at www.kcharvey.com.

KC Harvey is an environmental consulting and field services firm headquartered in Bozeman, Montana, with regional operations in Minot, North Dakota, Odessa, Texas, Marietta, Ohio, Casper, Wyoming; and Washington D.C.
