

Mid-Level Environmental Scientist/Engineer

KC Harvey Environmental, LLC is a growing environmental consulting and field services firm headquartered in Bozeman, Montana, with regional operations in Sheridan, Wyoming; Stanley, North Dakota; and Rawlins, Wyoming. We work on challenging and interesting projects with the energy and mining industries and state and federal agencies across the western United States. We are a nimble, committed team of professionals who provide a mid-level professional direct growth and mentoring opportunities.

We offer competitive benefits including 401(k) with matching, health, vision, dental, long-term disability and life insurance, & health savings accounts, 10 annual paid holidays and paid sick leave. Safety and technical training and continuing education and professional development opportunities are also provided, all in a location with world-class blue-ribbon fishing, skiing and outdoor recreation opportunities. We are currently seeking to hire a mid-level environmental scientist or engineer. The position is full time and can be based in Bozeman, Montana or Sheridan, WY with flexibility of in office and remote working. The position requires some travel in the US to work assignments. Compensation is dependent on experience and skills.

Projects and duties are comprised of a mix of office and field work and include:

- Collecting, managing and analyzing environmental data
- Preparing client reports and deliverables
- Storm water inspections, reporting, compliance, and maintenance
- Sampling of groundwater, surface water, and soil
- Mapping and inventories of soil and vegetation
- Participating in and managing remediation and reclamation projects for oil and gas, mining, energy production and other natural resource projects
- Client relations and project management
- Participating in business development tasks, including technical proposal development

Applicants must:

- Have a bachelor's degree in environmental science or engineering or related field; hydrogeology, hydrology, soil science, geology, environmental engineering degree preferred
- Have at least 3 years of experience in environmental consulting and field experience
- Have strong communication and technical writing skills
- Maintain high standards of safety
- Maintain a positive attitude and work well as part of a team
- Know how to use and interpret maps and GPS
- Have a clean driving record
- Participate in pre-employment drug and alcohol test
- Be proficient using Microsoft Office software

Preferred skills and experience:

- Advanced degree
- Education and experience in soils, geology, environmental chemistry, or remediation/reclamation,
- Experience working with oil and gas, mining, or energy generation clients
- Strong knowledge of Federal and Montana environmental regulations
- Business development experience
- GIS and/or Cad experience

To join our team, please submit a cover letter, resume and references to careers@kcharvey.com. Note that official transcripts may be requested to validate education.
